

North-South Corridor Study (NSCS), US 60 to Arizona Farms Road (Segment 1): Public Meetings Sept. 12, 14, 20

LEARN MORE AND PROVIDE YOUR INPUT!

The Arizona Department of Transportation (ADOT), in cooperation with Pinal County, will be preparing the North-South Corridor (NSCS) Design Concept Report (DCR) Tier 2 Environmental Study, from US 60 to Arizona Farms Road (Segment 1) known as NSCS Segment 1. This study will:

- Narrow the selected 1,500-foot corridor to a proposed 400-foot freeway alignment.
- Identify environmental considerations and mitigation efforts.
- Identify interchange locations and design concepts.
- Develop other design features.

North-South Segment 1 study area spans approximately 20 miles and extends from the town of Florence in the south to Apache Junction in the north. The study team will further evaluate NSCS Segment 1 to identify a preferred North-South alternative, which would include the alignment, interchange locations and other design features, and evaluate associated environmental impacts and mitigation.

GET INVOLVED!

Join us at one of our upcoming public meetings to learn more about the study, ask questions and provide your feedback to help inform a range of alternatives to be evaluated.
